Academic and Qualification

Bachelor of Computer Application

GL Bajaj Institute of Management

November 2021 - July 2024

Greater Noida, Uttar Pradesh

Intermediate

Atal Adarsh Vidhalya, Havelock Square

April 2020 - March 2021

New Delhi

Experience

Techkriti Groups

June 2024 – Present

Web Developer Intern

Delhi

- * Designed and developed dynamic and responsive website.
- * Collaborated with cross-functional teams to deliver high-quality web applications, enhancing user experience and achieving project goals within deadlines.

JavaTpoint

December 2022 – April 2023

Technical Content Writer intern

Remote

- * Partnered with a team of 10 experts to develop comprehensive training materials and user guides, increasing product adoption by 25
- * Developed skills and passion for technical writing through hands-on experience, contributing to overall team efficiency and document quality.

Projects

Steganography Tool | (Python Flask, Next.js, Typescript, CSS Tailwind). [Live Link](#)

- Implemented advanced steganography techniques to conceal both text data and images within other images, ensuring covert communication and data security.
- Enhanced security measures by incorporating the Vigenère cipher algorithm as an additional layer of encryption to safeguard hidden information.
- Configured Flask-CORS to handle cross-origin requests, ensuring secure frontend backend communication.

NCRTC Metro Route Finder | (HTML, CSS, Vue.js, Node.js, Express.js) [Live Link](#)

- Developed a route finder application for the NCRTC metro line between Delhi and Meerut using Vue.js for the frontend and Node.js with Express.js for the backend.
- Implemented functionality to calculate and display the shortest route between metro stations, integrating real-time data to provide accurate route options.
- Deployed the application to ensure accessibility and reliability for users planning their journeys.

Portfolio Profile | HTML, CSS, Javascript, SMTP(Simple Mail Transfer Protocol). [Live Link](#)

- Built a responsive dynamic website that showcases my skills and projects, optimized for various devices to ensure smooth navigation and enhanced user experience.
- Implemented SMTP for communication, enabling users to send messages directly through the website.
- Utilized HTML, CSS, and Javascript to create an elegant design with interactive features.

Technical Skills

- **Languages:** C/C++, HTML, CSS, Javascript, Python
- **Frameworks and Libraries:** Flask, Express.js, Vue.js, CSS Tailwind, Node.js
- **Other Technologies:** DSA, Git/GitHub, WordPress, Object-Oriented Programming (OOP), Kali Linux

Achievement

- **HackerRank** | 5 star in C++, 4 star in C, Python, and Problem Solving
- **Coding Ninja** | Secured the 725th position among 100,000+ competitors in Round 2 of CodeKaze, demonstrating exceptional technical expertise and competitive coding proficiency in a high-stakes national contest.
- **Codechef** | Secured a 3-star rating with a 1612 score on Codechef, demonstrating exceptional proficiency in competitive programming and ranking among the top 20
- **Hackathon** | Served as a team leader, securing 2nd place in an intercollegiate hackathon organized by Techvisor Club, competing against 50+ teams

Certification

- **Nasscom (Software Programmer - Python)** | Aligned to Competency Standards developed by IT-ITeS Sector Skills Council NASSCOM in collaboration with Industry and approved by Government.
- **HackerRank Problem Solving (Intermediate)** | It covers topics of Data Structures such as HashMaps, Stacks and Queues and Algorithms such as Dynamic Programming. |
- **HackerRank Python (Basic)** | It covers topics like Scalar Types, Operators and Control Flow, Strings, Collections and Iteration, Modularity, Objects and Types and Classes.
